2. LAUNCH OF JOINT OLS-North/SOLS CLEARINGHOUSE

For a number of years, the staff at the Southern Ontario Library Service have maintained web links to resources of professional interest in the library community. Initially called "Professional Information", this section was renamed as our "Clearinghouse" last year. This week, we are launching a shared version of the Clearinghouse. Staff from the OLS-North and SOLS will continue to maintain a "Joint OLS-North/SOLS Clearinghouse as a comprehensive topical

index to information. In this way, we will be able to tap into the knowledge found in both our organizations in order to help our libraries. While you can continue to use the address as http://www.sols.org/links/clearinghouse/index.htm , you will now also be able to use http://www.library.on.ca/links/clearinghouse/index.htm

At this site, you will find links to selected SOLS information, OLS-N information, as well as links to external sources. Some of the topics in this list also support the EXCEL program. Please note that the OLS Clearinghouse is not a bilingual website. Instead, resource pages are developed by topic and will reflect the available resources in either language as the need arises to support our various programs. One example is the "Centre global d'information" page, where French Ready Reference links can be found (located at http://www.library.on.ca/links/clearinghouse/readyref/centreglobalfr.htm). Where resources have been developed in both languages, this will be indicated at the top of the page.

Topics on the Clearinghouse page include Accreditation Resources, Adaptive Technology and Accessibility Resources, Board Development Resources, Children's Services Resources, Collection Development Resources, Cybersites for Children, Digital Collections, Facilities Planning Resources

3. Annual survey

The Heritage and Libraries Branch of the Ministry of Culture maintains statistics on public libraries in Ontario. These statistics are compiled using data from the *Annual Survey of Public Libraries*. The *Annual Survey of Public Libraries* provides important data on library services in Ontario. It is one of the requirements for receiving the provincial library operating grant, and must be completed by libraries, and organizations that contract for public library service.

Further information will be coming directly from the Ministry but, once again, staff from the Southern Ontario Library Service have been assigned to answer any questions or to provide assistance in completing the survey. The deadline for libraries and local services boards to e-file the survey is **March 31, 2006** and the staff person working with those libraries is Hélène Golden at 1-877-532-2901 or hgolden@sols.org. The deadline for First Nations libraries is **June 30, 2006** and the staff person working with those libraries is Patty Lawlor at 1-800-387-5765, ext. 5107 or plawlor@sols.org .

4. ACCESSIBILITY INFORMATION

Accessibility for Ontarians with Disabilities Act, 2005

On June 13, 2005, the ***Accessibility for Ontarians with Disabilities Act, 2005*** (AODA 2005) received Royal Assent and is now law. The purpose of the AODA 2005 is to benefit all Ontarians by developing, implementing and enforcing accessibility standards in order to achieve accessibility for Ontarians with disabilities by **2025**.

Standards will be developed in cooperation with people with disabilities, the Government of Ontario, representatives of industries and of various sectors of the economy with respect to goods, services, facilities, accommodations, employment, buildings, structures and premises.

For more information, please visit the Accessibility Ontario website at: www.mcss.gov.on.ca/accessibility/index.html or the French language website at http://www.mcss.gov.on.ca/accessibility/indexf.html

SOLS staff did plan to present a series of workshops on the issue of Accessibility this Spring. We know that standards will be set in both the public and private sectors to address the full range of disabilities – including physical, sensory, mental health, developmental and learning. Standards could include:

- Accessible pedestrian routes and entrances into buildings
    - Lower counter heights at cash registers to accommodate wheelchairs
    - Large print menus in restaurants for the visually-impaired
    - Staff training in serving customers with learning disabilities.

The official library representative on one of the Standards Committee will be Cynthia Archer, although it is expected that others will be participating.

Until standards are in place, the *Ontarians with Disabilities Act, 2001* will remain in effect, and government ministries and other affected public sector organizations continue to have planning obligations in accordance with that legislation. Municipalities will still have to submit yearly accessibility plans. Public libraries are sometimes included in these reports, but not always included.

As the standards are still a "work in progress", it was decided that we would postpone these information sessions until more information is available. In the meantime, we are working with the Accessibility Directorate of the Ministry of Community and Social Services to present information as it becomes available, and to ensure that every public library in southern Ontario is aware of the work.

5. FUNDING OPPORTUNITIES

In the "Joint OLS-North/SOLS Clearinghouse", there are a number of valuable links to "Funding Development Resources" that can be found at http://www.sols.org/links/clearinghouse/fundingdev/index.htm#Grants. Included in that section is a sub-section on "Grants and Grant-writing" that lists a number of funding opportunities. The following grants might be of interest to libraries in Ontario.

a) Starbucks sponsors ABC Canada Literacy Program– *Deadline: February 1, 2006*

In mid-December, the ABC CANADA Literacy Foundation announced that Starbucks Coffee Canada has signed an agreement to be the sponsor of Gift of Words™ presented by Starbucks. The program, developed and managed by ABC CANADA, is a national funding initiative providing resources for public and school libraries and literacy organizations to expand their book collections and launch 'reading circles' that encourage students, their teachers and parents to read and learn together. Organizations wishing to be considered for funding must apply directly to ABC CANADA Literacy Foundation using the application form at http://www.abc-canada.org/gow/. The deadline for applications is February 1, 2006.

b) Ontario Trillium Foundation – *Next Deadline: March 1, 2006*

The Ontario Trillium Foundation delivers two granting programs, the Community program and the Province-Wide program. Public libraries became eligible for the OTF **community program** following the completion of the strategic initiative for small libraries. Applications for grants for **municipal libraries** serving small communities (populations of 20,000 or less) must be submitted through the municipality. Applications for grants for **county libraries** serving small municipalities (populations of 20,000 or less) must be submitted through the County Library Board. Applications for grants for **First Nation libraries** must be submitted through the First Nation's Band Council. A copy of the application process is posted on the Foundation's website at http://www.trilliumfoundation.org/OTF-English/new/index.htm. There is also a link to the Trillium website from the main SOLS page at www.sols.org. The deadlines for the 2006 round of applications are March 1, July 1 and November 1 – at 5:00 pm on the deadline date.

Please note: In the December issue of ***Signal***, there was a list of the library projects which were announced on December 5th (for projects submitted in July 2005) which you can use as a reference. However, we did miss one library. The **Corporation of the Township of East Luther Grand Valley received a grant of** $10,800 to purchase a digital microform reader and laser printer, which will allow students to have access to local history at the Grand Valley Public Library.

c) HRSDC Summer Career Placements 2006– *Deadline: March 31, 2006*

This Initiative provides career-related work experience to students through the provision of wage subsidies to public, private and not-for-profit employers to create summer employment opportunities for students from 15 to 30 years of age (inclusively). More information is posted on the HRSDC website at http://www.hrsdc.gc.ca/en/epb/yi/yep/programs/scpp.shtml. The application deadline is Friday, March 31, 2006.

d) Summer Jobs - YCW in Heritage Organizations - *Deadline: February 18, 2006*

10. First Nation Communities Read Program Announcements

a) SOLS Receives Government of Canada Funding Support

SOLS has successfully applied for funding to support and expand the 2006 First Nation Communities Read program. The grant ($27,568) provides for the purchase and distribution of books in Ontario, Saskatchewan and British Columbia, author-illustrator touring to First Nation communities in Ontario, a program poster and book stickers, and author-illustrator participation at the 2006 Ontario Library Association Super Conference in February and Canadian Library Association Conference in June. SOLS acknowledges the financial support of the Government of Canada through the Book Publishing Industry Development Program (BPIDP) for this project.

b) Jury Announces 2006 Title Selection

As Long as the Rivers Flow is the 2006 First Nation Communities Read title selection. Written by Larry Loyie with Constance Brissenden, illustrated by Heather D. Holmlund, and published by Groundwood Books, it's a memoir

capable of speaking to young and old. Set in 1944, it recreates the summer Lawrence Loyie was ten years old, the last summer he spent with his Cree family before a Canadian government program forced him to attend residential school. All libraries and communities across Canada are welcome and encouraged to celebrate *As Long as the Rivers Flows* in 2006 through readings, displays and programming. There will be a First Nation Communities Read 2006 promotion, including an author-illustrator presentation, book giveaway (subject to available supply) and book signing at the OLA Super Conference's Expo Stage on Thursday, February 2.

13. Clearinghouse - Training Resources for Library Staff

We love to see you and your staff at the SOLS workshops, and we know the benefits to meeting face-to-face with experts and people who do work that is similar to yours. But, if you are looking for opportunities for in-house training, you might want to check out some of the links on the "Training Resources for Library Staff" page of the SOLS clearinghouse http://www.sols.org/links/clearinghouse/training/index.htm. We have recently added some new links, and here is a sample of the resources that you will find in that section.

Ohio Library Council. - *Orientation for new Library Employees* http://www.olc.org/orientation/intro.htm#explore

If you have new staff with no previous library experience, the Ohio Library Council provides a basic orientation for new employees. There are a few references that are Ohio specific but, overall, it's a generic orientation.

The Ohio Library Council has two other on-line courses, *Ohio Reference Excellence on the Web* and *Library Marketing*, which can be found on their on-line learning page at http://www.olc.org/online_edu.asp

Illinois Library System - Library U – http://learning.libraryu.org/home

Library U is a free, web-based training resource for library staff, supported by the Illinois Library System and the Illinois State Library with funding from Bill and Melinda Gates Foundation. An extensive offering of over 40 on-line courses is available in the following categories: Administrative Skills, Cataloguing, Community Building, Customer Service, Information Services, Library Operations, Library Principles, Marketing and Youth Services. The courses could be used for training individual staff on skills such as MARC coding, or you could use the content from a course, such as Dealing with Angry Patrons, to provide training to a group of staff.

Idaho State Library - Alternative Basic Library Education. http://www.lili.org/forlibs/ce/able.htm

Like our own program, EXCEL, these on-line courses offered by the Idaho State Library are for library staff with no formal education in library science. But, unlike EXCEL, they do not focus on library management. The three categories of courses are: Collection Development, Technical Services, and Public Services. There are additional courses on youth services, services to school aged children, and young adult services, available through Idaho's Supplemental Alternative Basic Library Education Program (http://www.lili.org/forlibs/ce/sable.htm).

14. SOLS in the Community

Patty Lawlor participated in a meeting of the Lieutenant Governor's Literacy Coalition at Queens Park on Friday, January 27, for a briefing on His Honour's literacy initiatives and to provide feedback on a proposed new initiative for Native children.

Gwen will be available at the poster session on Friday, February 3rd 12:00 – 12:45 in the Exhibit Hall.

In connection with the First Nations Reading Circle, SOLS staff prepared a manual on managing a reading circle program for children ages six to eight years. In addition, SOLS staff developed eleven theme-based program guides. At the poster session, you can drop by to see the manual, hear some of the audio material, and pick up sample copies of the theme guides. All eleven guides are now posted on the SOLS website at http://www.sols.org/links/clearinghouse/firstnations/readingcircles/index1.htm.
